

Automatic Rock Remover

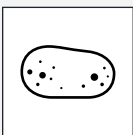

Effective Rock & Debris Removal Minimizes Equipment Damage

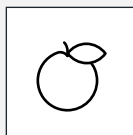

The Automatic Rock Remover integrates with our Hydrolift Destoner or Flume systems to effectively remove rocks and non-floating debris from the product line – minimizing equipment damage. Its rotating scoop wheel picks up non-floating debris from the transferring line and carries it to a discharge point. Its simple yet effective stainless steel design ensures minimal maintenance and quick cleaning.

- Integrates seamlessly with Vanmark's Hydrolift Destoner or Flume systems
- Removes non-floating debris and rocks with an innovative rotating scoop wheel that carries debris to the discharge point
- Constant speed gear motor and self-resetting torque limiter for drive protection and safety.
- Simple, sanitary design with external-mounted bearings allows for quick and thorough cleaning and maintenance
